

# Did the Monkeys Take Over the Zoo

Chris Norman

From Moscow to Manhattan  
From the east right to the west  
As they sit around their tables so important  
Making judgements that criticize the rest  
Be they christian Jew or Muslim  
Or to whatever god they pray  
Do they listen to the people all around them  
Do they listen to a single word they say  
And they say

Blah de blah de blah de blah  
(That's what they say)  
Blah de blah de blah de blah  
Blah de blah de blah de blah (yeah)  
Blah de blah de blah de blah

Can't they see what lies  
Ahead in the distance  
Don't it seem there's nothing  
That we can do (oh no no)  
And don't you feel  
There's no use in futile resistance  
And say what do you think  
Did the monkeys take over the zoo?  
Another conflict on the border  
Can't they agree to disagree  
Are they trying to establish new world order  
While we're watching people die on the TV  
As they throw our millions  
And billions around  
It's austerity or bust  
And it seems that money is the new religion  
Are these the people in whom we trust  
As they say

Blah de blah de blah de blah  
(Yeah that's what they say)  
Blah de blah de blah de blah (hmm yeah)  
Blah de blah de blah de blah (blah de blah de blah)  
Blah de blah de blah de blah

Can't they see what lies ahead in the distance  
Don't it seem there's nothing that we can do (oh no no)  
Say don't you feel there's no use in futile resistance  
And say what do you think; did the monkeys take over the zoo?  
Can't they see what lies ahead in the distance  
Don't it seem there's nothing that we can do (oh no no)  
And don't you feel there's no use in futile resistance  
And say what do you think; did the monkeys take over the zoo?  
I said say what do you think; did the monkeys take over the zoo?  
Say what do you think; did the monkeys take over the zoo?
