## You Can Go Your Own Way

You can go your own way You can go your own way It doesn't matter what the others say Cause you can go your own way

You can go your own way You got a ring on your finger A chain around your heart and soul Searching for an answer Looking for your own control Walk away from the leader Walk away from the leader Walk away from the TV Take a long hard look You can go your own way

You can go your own way You can go your own way You can go your own way You can go your own way

You can go your own way You can go your own way It doesn't matter what the others say Cause you can go your own way

You can go your own way
