

# Hearts On Fire

Cimorelli

Right there on the sidewalk  
we met after dark,  
your friend gave you a ride,  
you step out of his car.  
The moon lit up the street,  
it was the middle of July,  
but it was cold like November that night.

You're looking right at me  
and I'm looking away,  
you're telling me everything  
I'm too scared to say,  
you say my eyes are like something  
that you have never seen before.  
And I can't help but fall...

And I know that I'm so far gone,  
I'm so gone right now.  
He knows I'm down  
and he'll knock me out.  
Just one more look  
and he'll burn me down,  
he'll burn me down...

With our hearts on fire (hearts on fire),  
we lit up the night.  
Left our fears behind,  
running for our lives,  
like we never die...

It felt like magic,  
but I knew I couldn't have it.  
We were just so close,  
it's tragic.  
We could feel the burn  
of our hearts on fire (our hearts on fire)

I can't even breathe,  
you're like a shooting star,  
I know you could burn out,  
but I can't see that far.  
Get a little closer  
and the sparks shine in your eyes.  
I don't stand a chance.

And I know it's long way down,  
but I'm holding on,  
you flash that smile,  
my heart's giving out.  
There's no way I can forget you now,  
forget you now...

With our hearts on fire (hearts on fire),  
we lit up the night.  
Left our fears behind,  
running for our lives,  
like we never die...

It felt like magic,  
but I knew I couldn't have it.  
We were just so close,  
it's tragic.  
We could feel the burn  
of our hearts on fire (our hearts on fire)

It was freedom,  
he was magic,  
I was on fire,  
it was tragic.  
Had my walls up,  
but he broke me down,

And the sparks fly all around... (2x)

With our hearts on fire,  
we lit up the night.  
Left our fears behind,  
running for our lives.

Like we never die...
