

# Silence From Angels Above

Circus Maximus

I'm staring out the window  
It's raining outside  
The fall has caught up with me  
I feel that I can't breathe  
I wish I couldn't see  
I lived my life through someone else

Long ago I made a choice  
That I thought would make a difference  
And lead me back on track

Silence from angels above  
Leaving us behind in a time when we're in need  
Of someone to hold close to your heart  
I'm just another leaf falling down on the ground

I'm standing at a crossroad  
I don't know what to do  
I will not live to see another day  
The time has come to face the end  
This is a necessary thing  
Cause I will hold your hand and say  
Will you forgive me

Long ago I made a choice  
That I thought would make a difference  
And lead me back on track
