

Closet Death

Civet

Little girl just flesh & blood
You're blond to see the pain ahead
I've been waiting & plotting what I'll do with you
Won't someone warn her
Death's around the corner

Stay awake don't close your eyes
Cause all I want is you
Stay awake or you will die
And all I need is you

Trapped inside that little room
Your closet death is coming soon
I hear you scratching, but there's no way I'll let you go
Won't someone warn her
Death's around the corner

There is no way out
I won't let you go
