## **Diamonds Made From Rain**

## **Eric Clapton**

The moment's come and gone Every memory leaves a trace All that I've come to know In the lines upon my face

Every storm that I have turned Each forgiveness I have earned Every shame that's taught me grace From you I have learned

No love is lost No love is lost

That everything is shown to me I let it wash over me Like diamonds made of rain You can find joy inside the pain

Everything that I've endured For the wisdom of a pearl I wouldn't change a thing You can make diamonds from the rain

Every mile of this road Every chord that's struck my soul You are the melody That will soothe me 'til I'm old

If the promises are kept I'll waive all of my regrets I can say I've overcome With you, my heart is open

No love was lost No love was lost

That everything is shown to me I let it wash over me Like diamonds made of rain You can find joy inside the pain

Everything that I've endured For the wisdom of a pearl I wouldn't change a thing You can make diamonds from the rain
