

One More Sunny Day

Cliff Richard

Just give me one more sunny day
bring one more summer breeze my way
one more blue sky to call mine
come on, just let it shine

So what did I learn from the Ferris wheel
had a view from the top
should have known it would stop some day
never forgot how it made me feel
but a ticket to ride never buys the same high as the fall
still you never stop longing for more

Just give me one more sunny day
bring one more summer breeze my way
one more blue sky to call mine
come on, just let it shine

Where did we go when we just drove around
top down, radio up, can't you see us now
whatever happened to the plans we made
why did we wait it's never too late
don't let go of your dreams
no matter how dark it seems

Just give me one more sunny day
bring one more summer breeze my way
one more blue sky to call mine
come on, just let it shine

Wouldn't it be so fine
just open up our minds
and it's summer time
oh yeah

Just give me one more sunny day
ooh ooh

Just give me one more sunny day
hey hey

Just give me one more sunny day
bring one more summer breeze my way
one more blue sky to call mine
come on, just let it shine

Hey hey give me one more sunny day
hey hey yeah yeah come on just let it shine
with a blue sky to call mine
