

## Snowy Wings

Clou

Cover me with your snowy wings,  
back your sound under the sky.  
Cover me with your snowy wings,  
follow me into the night.

You pulled me from the door,  
so darling please don't go.  
I never sleep if you will come this way.  
I know you are unwell,  
I can see you struggle,  
even from the way of just standing.

You touched my face,  
I turned away.
