

Best Friend

Cloud Cult

I can't hold on but I can't let go
So I just gotta hope that I can keep on holdin
I am your best friend
I can't give up but I can't get down
Gotta fake it til I make it; things'll turn around
And you are my best friend

And every time I think I've finally found the truth
It transforms and shapeshifts
Start over again

I'll take you on my side
I'll make you terrified, terrified, terrified.

And every time I think I've finally found the truth
It transforms and shapeshifts
Start over again

I can't hold on but I can't let go
So I just gotta hope that I can keep on holdin
I am your best friend
I can't give up but I can't get down
Gotta fake it til I make it; things'll turn around
And you are my best friend

And every time I think I've finally found the truth
It transforms and shapeshifts
Start over again
