

# Hurricane And Fire Survival Guide

Cloud Cult

I've had enough of hiding underneath my covers.  
I'm done with all this poop that brings me down, down, down.  
Don't bring me down, down, down.

I'm sick and tired of being sick and tired.  
I will laugh my way through hurricanes and fire.  
That's why you don't want to bring me down.  
That's why you don't want to bring me down.
