

True To Yourself

Cock Sparrer

Always trying to pleas, always running round
Finding time feet don't touch the ground
Back against the wall, no thanks at all
Crack up, head fuck, no fun at all

Break out - do what you wanna do
Find out - who is the real you?
Shoot it out - I'll do it my own way

Always be true to you
Always be true to you
Always be true to yourself

To yourself

Always first to offer, always last to ask
They never really bother with the face behind the mask
The taller you stand, the further you fall
Knocked down, kept down, no fun at all

Break out - do what you wanna do
Find out - who is the real you?
Shoot it out - I'll do it my own way

Always be true to you
Always be true to you
Always be true to yourself

To yourself
