

Say Your Last Goodbye

Cog

Say your last goodbye
What we were has died
Time to start again
Let the end begin

So alone
Cutting ties
On our own
And there's nothing more to say
As we go our separate ways
Say your last goodbye

Say to me: "The madness is over, it's over"
Say to me: "The madness is over, it's over"

Even though we tried
Leave it all behind

So alone
Cutting ties
On our own
And there's no one left to blame
As we go our separate ways
Say your last goodbye

Say to me: "The madness is over, it's over"
Say to me: "The madness is over, it's over"

And no fantasy
We're ending it all
So out of phase
Both wanting more

No subtleties
We're hitting brick walls
This bitter taste
As we fall

Say to me: "The madness is over, it's over"
Say to me: "The madness, it's over, it's over"
Say to me: "The madness is over, it's over"
