

# Hear My Baby Call

Cold War Kids

There's a power in your voice or resistance  
Send a telepathic thought like a lightning rod  
In the distant blue smiling like you do  
I will not disappear

When I hear my baby call  
When I hear my baby call  
When I hear my baby call  
No matter what  
No matter what

There's an easy way to test you suspicion  
Do you only hang around if there's a dollar in it?  
Mr. Generous laid out with mistrust  
They will not sleep away

When I hear my baby call  
When I hear my baby call  
When I hear my baby call  
No matter what  
No matter what  
No matter what  
No matter what

More than evil, more than shame the emotion  
that we long to understand in your fine happiness  
Can you hold on to it if it meant you'd lose  
Control of everything else

When I hear my baby call  
When I hear my baby call  
When I hear my baby call  
No matter what  
No matter what  
No matter what  
No matter what

When I hear my baby call  
Reach out to me  
Reach out to me

When I hear my baby call  
Reach out to me  
Reach out to me

When I hear my baby call  
No matter what  
No matter what  
No matter what  
No matter what  
Reach out to me (9x)
