

Witch

Cold

I never knew, she's gone
She's flown away
Everyone said she's not
Your kinda girl
I'm so alone, this girl
Is flowing fear
Everyone said
She fucked up this time

It's my brand new world
Today
And it's my brand new world
This way

I'll never change, it's wrong
So go away
Everyone said she's not
Your kinda girl

I've tasted love, it burns
I'm so afraid
Everyone said
She fucked up this time

It's my brand new world
Today
And it's my brand new world
This way

I think this fucking witch knows
The way
And everything I feel
It's all mine
