Gravity

Baby It's been a long time coming Such a long, long time And I can't stop running Such a long, long time Can you hear my heart beating? Can you hear that sound? 'Cause I can't help thinking And I won't stop now And then I looked up at the sun And I could see Oh, the way that gravity pulls on you and me And then I looked up at the sky And saw the sun And the way that gravity pushes on everyone On everyone Baby When your wheels stop turning And you feel let down And it seems like troubles Have come all around I can hear your heart beating I can hear that sound But I can't help thinking And I won't look now And then I looked up at the sun And I could see Oh, the way that gravity pulls on you and me And then I looked up at the sky And saw the sun And the way that gravity pushes on everyone On everyone On everyone On everyone On everyone On everyone
