

I Haven't Seen You in a Long Time

Colin Hay

I haven't seen you in a long time
Since I've been gone
It always seemed to be the wrong time
It's the same old song
Looks like we'll never be together
Our whole lives through
There may be changes in the weather
But not for me and you

Can you hear me
When I'm calling out to you
Can you see me
Sometimes in the night
When you put out the light

I haven't seen you in a long time
Since they put me away
I only see you in my dream time
At the break of day
I know I never ever listened
My whole life through
If I had heard your words of wisdom
I could be with you

Can you feel me
When he's making love to you
Can you hear me
When you're alone
When you hang up the phone
When it's real late at night
When you put out the light

I still see you
I still feel you
When I'm alone
And my mind starts to roam
You come in the night
When I turn out the light

I haven't seen you in a long time
Since I've been gone
It always seemed to be the wrong time
It's the same old song
Looks like we'll never be together
Our whole lives through
There may be changes in the weather
But not for me and you
That's true
