

There's Water Over You

Colin Hay

I can feel your love come shining
Over and across the sea
There never was a light more blinding
Ever watching over me

I walk into the swirling wind
It carries me away
Back to where my life begins
Can you hear me say?

I can see you where you're hiding
And there's water over you
I know that you are pretending
And there's water over you

I walk beside you on the wall
Oh, so far away
You will catch me if I fall
Can you hear me say?

Love and all security
These are things you give to me

I can touch you when I'm dreaming
Long into the lonely night
You hold me when I wake up screaming
Everything will be alright

And if I had to choose between
Meeting God or you
I would wake my king and queen
There's water over you

Love for all eternity
This and more you give to me
