

# Now She's Gone

Collie Buddz

Yeah... (Don't you leave... me this way)  
Now she gone... (this way)  
Gone, gone, gone (Don't you leave... me this way)  
Now she gone...  
Now she gone...  
Boom, ey, yeah yeah  
Weh mi seh?

Now she gone  
No words cuda explain di pain  
Dat mi feeling  
You're forever on my brain  
She got mi bleedin'  
And di whole world to blame  
Naturally tings could not remain di same  
I hope you find a lot of nice things out there  
Now the memory is all we share  
I tell you again girl you know I care  
You just let me know and I'll be there

Now it seems like only yesterday  
Since you gone away  
But den anotha day goes by  
I neva meant to make you sad  
Or ever treat you bad  
I never wanted to see you cry  
I should have been there for you  
To see this through  
The regrets always on my mind  
Now it's too late for you  
To turn around, oh girl  
And see what you've left behind

Now she gone  
No words cuda explain di pain  
Dat mi feeling  
You're forever on my brain  
She got mi bleedin'  
And di whole world to blame  
Naturally tings could not remain di same  
I hope you find a lot of nice things out there  
Now the memory is all we share  
I tell you again girl you know I care  
You just let me know and I'll be there

If I could turn back the hands of time  
I woulda say all the right things  
Just to make sure you're mine  
I'm blinded by the light  
I couldn't see the sign  
I took your love for granted  
Thought we was fine  
But now my mine is on you only  
Oh it's so lonely  
And now dat it's been so long  
With no one to hold me  
No one told me

Dat dis reality would hit soh strong

Now she gone  
No words cuda explain di pain  
Dat mi feeling  
You're forever on my brain  
She got mi bleedin'  
And di whole world to blame  
Naturally tings could not remain di same  
I hope you find a lot of nice things out there  
Now the memory is all we share  
I tell you again girl you know I care  
You just let me know and I'll be there

Now she gone  
No words cuda explain di pain  
Dat mi feeling  
You're forever on my brain  
She got mi bleedin'  
And di whole world to blame  
Naturally tings could not remain di same
