

Fire

Conor Maynard

They gonna set this place on fire
Blow it up into the sky, yeah
Ain't nobody stopping us, nobody stopping us
I can feel that bottom line
Going up and down your spine, yeah
Ain't nobody stopping us now!
And dancing so close, we can't slow it down
I get up in this club, I'm gonna make you fall in love
Jumping so high, there's no coming down
Don't wanna come down!

I'm gonna set this place on fire
You gonna lose yourself tonight, yeah
Oh, oh, singing oh, oh, oh
I can feel you in the air, yeah
Let's sing something here, yeah
Light it up, let's set this place on fire!

You gonna leave this place in flames
Ain't nobody stopping us, nobody stopping us
For the heat rise of your body, it's a riot or a party?
Yeah, ain't nobody stopping us now!
And dancing so close, we can't slow it down
I get up in this club, I'm gonna make you fall in love
Jumping so high, there's no coming down
Don't wanna come down!

I'm gonna set this place on fire
You gonna lose yourself tonight, yeah
Oh, oh, singing oh, oh, oh
I can feel you in the air, yeah
Let's sing something here, yeah
Light it up, let's set this place on fire!

Feel that post till the sun breaks down
Feel that kick and my heart beats now
One last chance, gotta feel this crowd
One, last hook gotta play it loud
I feel that post till the sun breaks down
I feel that kick till my heart beats now
One last chance, gotta feel this crowd
One, last hook gotta play it loud!

I'm gonna set this place on fire
You gonna lose yourself tonight, yeah
Oh, oh, singing oh, oh, oh
I can feel you in the air, yeah
Let's sing something here, yeah
Light it up, let's set this place on fire!
