

My One And Only You

Conway Twitty

My one and only you
I'll never make you cry
I'll never make you blue
My one and only you.

My one and only you
For us there will be a sad goodbye
I'll never make you cry
My one and only you.

Each time you cry
I try to brush your tears aside
Well for when you cry, I die
A slow death inside.

My one and only you
For us there will be a sad goodbye
I'll never make you cry
My one and only you.

Each time you cry
I try to brush your tears aside
Well for when you cry, I die
A slow death inside.

My one and only you
For us there will be a sad goodbye
I'll never make you cry
My one and only you
