

I'm Safer On an Airplane

Copeland

It happened then, it happens now
They let you in, they let you down
And it feels like we can't get out
And it feels like hell

I think I'm safer in an airplane
I think I'm safer with my lungs full of smoke
I think I'm safer on the jetway
Than a world without hope

The day came in, the day went out
And not a bit of peace was spoken about
And it feels like a suicidal world
And it feels like hell

I think I'm safer in an airplane
I think I'm safer if I run through the street
I think I'm safer on the jetway
Than a world without peace

Oh, what arms will stretch out when they've had enough?
Oh, when they are tired of holding up us...

I think I'm safer on an airplane
(I think I'm safer on an airplane)
I think I'm safer in the sky up above
I think I'm safer on the jetway
Than a world without...

I think I'm safer on an airplane
(I think I'm safer on an airplane)
I think I'm safer in the sky up above
I think I'm safer on the jetway
Than a world without love
