

# Believing

Corey Hart

Do you believe in truth or will you, will you  
Compromise again  
Do you believe in fate can you can you follow  
Where she leads  
I never thought I'd find myself in better days

Don't give us up , o baby  
See the sunlight in your hair caressing, touching over  
me  
Don't let us down, o baby, you're the reason I'm still  
here  
The gift you give so naturally  
I will live these precious words  
Simply by believing

Do you remember seeing the silhouette  
Of Istanbul's blue mosque  
Engraving our names together on the white hot sand  
We found from the black sea  
Hey beneath the cypress trees  
You made sweet love with me

Don't give us up, o baby, see you dancing in the sun  
Music played on the radio  
Don't let us down, o baby, I just can't stand losing  
you  
It's getting harder everyday  
But I'll get through these troubled times  
Simply by believing

All my fears, all your faith in me all your tears will  
Fade away  
O god, the great dividing walls come crumbling down  
My love, the fields of innocence remember you

Don't give us up, o baby  
See the sunlight in your hair caressing, touching over  
me  
Don't let us down, o baby, you're the reason I'm still  
here  
The gift you give so naturally  
I will live these precious words  
Simply by believing  
I will live and die for you  
Believing
