Yea-a No love No love lost Fill your cup with this empty feeling (No love lost) Practicing the art of deceiving You know I've watched you both hypnotize Silence your lips There's no sound for your anguished cry Lost love haunts lives That are tangled up inside It's such a lonely way you know (No love lost) Troubled muse of a broken ceiling (No love lost) Tender-hearted lover still believing You know I've watched you both mesmerized To bear the fruit of deceit So ruddy and sweet to eat, yea Lost love will haunt lives That are tangled up inside It's such a lonely way you know Like a frightened antelope Running from a killer's eye So graceful, so agile Yet, she falls (falls) No love lost The declaration is quite amusing, (Oh yea) No love lost, (Yea) The frustration is not your choosing, (Yea) Nothing so pure in life As love's young dreams So don't cut away What was once your dream Your dream ('O yea) (No love lost, no love lost) No yea must you go this time (No love lost, in love, no love lost, no love lost No love lost, in love, no love lost, no love lost No love lost, in love, no love lost, no love lost) Don't you (No love lost, no love lost, no love lost again and again and again, no love lost, no love lost, no love lost).
