

## April's Love

Court Yard Hounds

All the years I've gone through my life  
Taking the fall just to make it alright  
A time and place, never could erase  
The day we met

You can't make me stay  
I wouldn't anyway  
'Cause it don't feel right  
When it's said and done  
You can't hold on to the light  
If it don't feel right

Yeah, I'm OK, but I'm not the same  
And I take it in stride  
There's no way to lose, with pictures to prove  
The lives we made

You didn't take a stand  
You didn't hold my hand  
You should have held on tight  
When it's said and done  
She's gonna run through the dead of night  
If it don't feel right

Crimson pair, we could make 'em stare  
Oh, but I slipped right down  
I saw his face, all time erased  
But that don't make it right

You've got a thousand lines  
You're going overtime  
Just to change my mind  
With so much to prove  
Babe you're on the move... it's a million miles  
When it don't feel right
