

## Buried Alive

### Creature Feature

I forever dream within a dream  
Of a certain city in the sea  
As I walk the valley of unrest  
Behind this mask of crimson death

I long for a loss of breath  
And a most dire predicament  
Murders in the rue morgue  
Silence and shadow's what I adore

I can't explain just how it feels  
The thought of my premature burial  
Inside this oblong box I lie  
With the hopes I'll be buried alive

The oval portrait upon the wall  
Will someday cause this house to fall  
The power of words left unsaid  
As I join the spirits of the dead

I can't explain just how it feels  
The thought of my premature burial  
Inside this oblong box I lie  
With the hopes I'll be buried alive

Well, I'm the man who's used up  
Washed up  
Bricked up

Descent into maelstrom  
Bedlam  
Redrum

Bet the devil my head  
Misled  
Bloodshed

Heart under the floorboards  
Beats for  
Lenore  
Nevermore

I can't explain just how it feels  
The thought of my premature burial  
Inside this oblong box I lie  
With the hopes I'll be buried alive
