

# Fear

Criss Angel

I Live in the past  
I can't move on beyond the pain  
I feel no release  
I want to find my peace of mind

My fear my fear (come on come on)  
It's holding me stillborn  
My fear my fear (come on come on)  
I'll never be again  
(Don't fear)

You stole the innocence  
From a child to be no more  
Blinded by the silence  
Afraid to ever speak a word

My fear my fear (come on come on)  
It's holding me stillborn  
My fear my fear (come on come on)  
I'll never be again  
(Don't fear Don't fear Don't fear Don't fear)

Thinking on the times of my demise and I wish it  
Wasn't me the victimized  
And I don't know really can't see how I really  
Couldn't kill the fucker who violated me

My fear my fear (come on come on)  
It's holding me stillborn  
My fear my fear (come on come on)  
It's holding me stillborn

Thinking on the times of my demise and I wish it  
Wasn't me the victimized  
And I don't know really can't see how I really  
Couldn't kill the fucker who violated me

Thinking on the times of my demise and I wish it  
Wasn't me the victimized  
And I don't know really can't see how I really  
Couldn't kill...
