

## Tall Trees

## Crowded House

Watch out big ships are waiting  
Salt frozen on your cheek  
I saw a girl and boy arriving  
And a steamer put out to sea

Tall tree  
Stand in the distance  
Remember  
When you were green  
Don't wipe  
The salt from your skin  
You must keep running the distance

Sun sleeps on misty morning  
Light years from channel three  
I feel halfway to zero  
Call me a hero I might just agree

Tall tree  
Stand in the distance  
Remember  
When you were green  
Don't wipe  
The salt from your skin  
You must keep running the distance

And the roses you grow  
Have a powerful scent  
They'll be breaking your heart  
By the morning

I feel halfway to zero  
Call me a hero I might just agree

Tall tree  
Stand in the distance  
Remember  
When you were green  
Don't wipe  
The salt from your skin  
Tall tree  
Tall tree  
Don't wipe  
The salt from your skin  
You must keep running the distance  
Tall tree
