

## Leather and Metal

Cruel Force

Whipped and beaten  
Move on you little horny bitch  
Can you feel my passion?  
Magic is in the air  
Leather and Metal  
Leather and Metal

My leather queen  
Of hell delight  
She is obscene all the time  
Fulfill my dream  
Bow down - start to suck  
Leather and Metal  
Leather and Metal

Then you died  
Death by lust is the only way  
No need to cry  
The boys are coming to gain  
Alright!
