

Say Good Morning

Crush Luther

Do you know, do you know, you know misery girl?
Will never get you spinning, just leave it alone
Yeah, misery girl, will only get you spinning, too late and too
slow
What in the world would you worry for
You'll make it up, make it up
You'll make it up, make it up
Say good morning, say good morning, darling
I love what you do to me
Say good morning, say good morning, darling
