

# Fear of the Rage

Cryonic Temple

I cringe my teeth in wrath of the rage  
Mass psychosis this land corrupts  
Desolation dividing mankind  
Wars and rumours of endless wars  
Feel me, fear me, see me, hear me,

I am the only one, the one that survived, the first to  
revenge  
I walk my own way, In fear of the rage they whisper my  
name  
In fear of the rage, scream out my name

Haunting shadows from a wicked past  
Death crawls closer, you're feel so lost  
Sinister hate behaviour won't last  
Let me help you before it's too late  
Feel me, fear me, see me, hear me,

I am the only one, the one that survived, the first to  
revenge  
I walk my own way, In fear of the rage they whisper my  
name  
In fear of the rage, scream my name

I am the only one, the one that survived, the first to  
revenge  
I walk my own way, In fear of the rage they whisper my  
name
