

My Friend

Crystal Lewis

Thank you
For being my friend
For being the one
On whom I depend

We've been a team
Come rain or shine
Come win or lose
What's yours has been mine

I love you my friend
For giving to me
For being my confidant
For letting me be me
For sharing your heart
For taking a stand
I want to be like you
I love you, my friend

I'll never forget
The secrets we kept
The stories we told
The nights we never slept

The tears that we cried
The heartaches we shared
Somehow gave me hope
When it seemed no one cared

There've been times
I felt my life
Was coming to an end
You stood by me, my friend

I thank God
For sending someone
Like you to me
I'm glad we've got each other

The years will pass
And times will change
But one thing will always
Stay the same,
We'll always be friends
