

Remember

Crystal Lewis

He's the man who'd bleed for me
Not making a sound or cry
He suffered as a guilty man
His innocence was the crime
While other said come down and save yourself
He was saving my life
remember, I will remember
What He did for me
Remember, I will remember
How He died for me
early Sunday morning came
The stone had been rolled away
They stepped inside the empty grave
Alone in dismay
They were thinking he was gone
They were not believing
Death of the lamb did bring
Forgiveness and healing
Why do you seek Him here among the dead?
He is risen!
remember, I will remember
What He did for me
Remember, I will remember
How He died for me
I know it's You who lives inside of me
I know it's true the peace of mind you bring to me
Your sacrifice has now set me free...I will always...
remember, I will remember
What He did for me
Remember, I will remember
How He died for me
