

# Psycho Pollution

Crystal Tears

Shed a tear for all the ones who we let disappear  
Just from those moments in life we all fear  
But when the ultimate end's closing near  
And then it's you recollect

The love we never find, moments we leave behind  
The simple things that keep us separated  
It's never us to blame, our faults remain the same  
Our ego makes us blind degenerated

WE'RE BLIND

The deadeye insight, forever denied, lifetime delusion  
DECLINED

The battle of sins, goes deeper within, psycho pollution

Eye to eye, now it is kill or be killed, what a lie  
Oh we can change all this shit if we try  
It is more than you and me, gotta try  
Just to fall with our pride

The love we never find...

WE'RE BLIND...

The love we never find...

WE'RE BLIND...
