Again, the monster of my mind try to hunt me down And only my defense is to stay awake

Is my desire to be killed by horrible nightmare from the dark?

I always see these fingernails and madman's crazy eyes

If he he'll kill me in my dream I'm dead for real - don't let t
hat happen!

I'll face the terror in a life-death battle Only wake up me when he'll come!
I'm not afraid to fall asleep and kill him!
You're not my nightmare anymore!

I'm tired and I have enough - all these sleepless nights When he whispers "you are dead" or call my name This night I've got something for him I won't let him kill me Not this time!

I always see these fingernails and madman's crazy eyes

If he he'll kill me in my dream I'm dead for real - don't let t
hat happen!
