

# Julia Is Possessed

Crystal Viper

Can you help her please?  
It's our guilt...  
Do what shall be done  
We know you killed...  
Dear reverend, save her soul!  
She won't be the devil's doll!

It's the only way  
We know the price  
But what can we do?  
Just see her eyes!  
In God's name we should act  
She's possessed, it's a fact

Does she need to die, our girl?  
Maybe there is a way  
She means the whole world to us, you know!  
Just give us one hope's ray

Julia is possessed! Listen to me!  
We should kill her  
And let it be!  
Can't you see them, demons of the night?  
Dark and nasty  
They will not hide!

Only death will save her soul!

I know what to do  
So now let's pray  
I did it before  
Do what I say  
Yes maybe she will die  
I don't know, I won't lie

Candles, sacred cross  
My weapons are  
God is with me, yes  
He is not far  
Holy book and the stole  
The demon will pay toll

Does she need to die, our girl?  
Maybe there is a way  
She means the whole world to us, you know!  
Just give us one hope's ray

Julia is possessed! Listen to me!  
We should kill her  
And let it be!  
Can't you see them, demons of the night?  
Dark and nasty  
They will not hide!

Only death will save her soul!
