

# The Anvil Of Hate

Crystal Viper

As written in the forgotten scrolls of the old faith  
The truth will be waiting for you - behind the gate  
Take the magic demons' dagger, to protect your men  
Queen of hell will show you the way, go and find her!

Remember about the holy seven dragon's tears  
The same, that hold the seven mighty deadly fears  
Stars on the black sky are shining like Khalandir's torch  
Devils, witches and demons are now waiting, what will be forged  
?  
Yes, it is your fate!

Go to hell!  
To find crusher of the souls  
Go to hell!  
You need to enter burning halls  
Go to hell!  
Ohh, it is time to fulfill your fate  
- the anvil of hate!

The golden hammers of death will break the curse for good  
You know that I would go there with you, if I could  
But this is your own destiny, to break the spell  
You need to wait, for the sound of the morning bell

All the torches from human bones are burning around  
Yes, this is the right time, the destiny was found  
To enter the red hall and to be strong like a stone tower!  
Yes, it is your fate!
