Culcha Candela

Sittin deh in da city  
With millions of people around me  
Thinkin about our so called civilized problems  
Erase our time and inspiration  
All people keep on forgetting to think about  
What divides right from wrong

We are conqueror  
And we claim our rights back rise and shine  
And we are bon fire  
We are spreadin di vibe nah commit no crime  
Seh you are conqueror  
And you enslave mankind for a long long time  
And you are bon fire  
With your machine and gun but we don't wanna go further

Take time for your revolution  
Excuse no more it's time fi action  
Gunshottattatta a buss for to long  
Always remember united we strong  
Take time for your revolution  
Time a di warlord almost done  
Nuff a dem a fear di new generation  
So we shout it again  
United we strong

Some politician that we nah need no longer longer  
Dem carry on and play good against bad man badman  
And dem a play  
Long time too many years fi di most of mankind  
Blow dem house and mind  
Dem nah care fi di props a di younger  
Only care bout power get stronger  
Dem a get in position fi di final round  
Everybody want wealth and ressource fi di future

Take time for your revolution  
Excuse no more it's time fi action  
Gunshottattatta a buss for to long  
Always remember united we strong  
Take time for your revolution  
Time a di warlord almost done  
Nuff a dem a fear di new generation  
So we shout it again  
United we strong

Dem been killing lots of innocent children  
Dem a spend di million to drop dem bombs

Right now di same man claim back from dem land  
Civilians suffer while peace never come

Kill saddam fi di oil dem a want  
Tryin fi win but them can't understand

People don't want this yah bomboclaat babylon

Wanna break free and make dem own rules  
Take responsibility for what dem gwaan do  
Don't wanna go to no american highschool

Take time for your revolution  
Excuse no more it's time fi action  
Gunshottattatta a buss for to long  
Always remember united we strong

After a decade of war amd crime now people it is di time  
To realize and follow di sign now  
Hear this rhyme

To liberate them hearts and mind now
