## Revolution

## **Culcha Candela**

Sittin deh in da city
With millions of people around me
Thinkin about our so called civilized problems
Erase our time and inspiration
All people keep on forgetting to think about
What divides right from wrong

We are conqueror
And we claim our rights back rise and shine
And we are bon fire
We are spreadin di vibe nah commit no crime
Seh you are conqueror
And you enslave mankind for a long long time
And you are bon fire
With your machine and gun but we don't wanna go further

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution
Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

Some politician that we nah need no longer longer Dem carry on and play good against bad man badman And dem a play
Long time too many years fi di most of mankind
Blow dem house and mind
Dem nah care fi di props a di younger
Only care bout power get stronger
Dem a get in position fi di final round
Everybody want wealth and ressource fi di future

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution
Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

Tryin fi win but them can't understand

People don't want this yah bomboclaat babylon Dem no want no military control Wanna break free and make dem own rules Take responsibility for what dem gwaan do Don't wanna go to no american highschool

Take time for your revolution
Excuse no more it's time fi action
Gunshottattatta a buss for to long
Always remember united we strong
Take time for your revolution
Time a di warlord almost done
Nuff a dem a fear di new generation
So we shout it again
United we strong

After a decade of war amd crime now people it is di time To realize and follow di sign now

Hear this rhyme

This is a song fi all mankind

To liberate them hearts and mind now

Never stop trying

Always be aware that we are conqueror

And we a bon fire
