

# Love to the People

Curtis Mayfield

Well! Fallin' in - out of the streets again  
Unemployment lines - a lot of people standing in  
News is bad on every TV show  
So I tune in my radio - talkin' 'bout

Love to the people  
Little bit of warning to the cold  
Little but of brotherhood - guaranteed  
It can be good for the soul

Well! Nothing but beans on the table  
Livin' the blues - paying the dues  
I'm not hardly able  
A lot of folks they say there is no way  
And don't look to another day  
Well there's another way

Love to the people  
Little bit of warning to the cold  
Little but of brotherhood - guaranteed  
It can be good for the soul

In the morning - it's alright  
I'm not givin' up - up this little pride  
I got a lifetime - to keep a-livin' mine  
The way you do it - is to get right to it

Sometimes I think before our life is gone  
We'll see the kingdom come

Love to the people  
Little bit of warning to the cold  
Little but of brotherhood - guaranteed  
It can be good for the soul

In the morning - it's alright  
I'm not givin' up - up this little pride  
I got a lifetime - to keep a-livin' mine  
The way you do it - is to get right to it
