Curve

Suck my time, my energy  
You can be the enemy

Cotton candy liberty  
Cotton candy liberty

You're in charge of all you see  
But it isn't me that has to believe

So save yourself instead of me  
Show me who you really are

Cotton candy liberty  
Cotton candy liberty  
Cotton candy liberty  
Cotton candy liberty

I'm not surprised at who you are  
Maybe we could go really far

'Cause I'm living in a place  
You don't understand  
I'm living in a space  
That you don't command

Playing out my life  
Free from harmful thoughts  
Looking right and left  
So I don't get caught

Now suck my time, my energy
