

Die Like A Dog

Curve

Could be, eating full
I will take the floor
Could be, winner full
I will play ball
Hiding inner hope
I am secret oath
I get black and cold
I won't play more
Peace in a world free from religion
Peace in a world where everyone gets heaven
Peace in a world free from religion
Peace in a world where everyone gets heaven
I'd like to see, to say that I'd survive
I'd like to see, to say that I'd survive
Peace in a world free from religion
Peace in a world where everyone gets heaven
Peace in a world free from religion
Peace in a world where everyone gets heaven
Just try not to die like a dog
End up alone, freezing from the smog
I'm just trying not to die in vain
Then leave my mark, stake my claim
Peace in a world free from religion
Peace in a world where everyone gets heaven
Peace in a world free from religion
Peace in a world where everyone gets heaven
Peace in a world free from religion
Peace in a world where everyone gets heaven
Peace in a world
Peace in a world
Peace in a world
Free from religion
Listen to my eyes clean
Colorful confession
I remember mutual aggression
The sign of the body sleeps
