

# Meet Me in a House of Love

Cut Copy

Don't shed your tears  
Just meet me in a house of love  
You know when you're there because the colors just soak you up  
Once I was lost but in this house I can be found  
Feel like the sun, we're rising and we won't come down

Into the light  
Into forever  
Let's come together like the brightest stars  
Into the light  
Into forever  
Let's come together like the brightest stars

It's cold in the street  
But we can build a house of love  
We hold up the walls, the lovers in the yearning hearts  
Once I was lost but in this house I can be found  
Feel like the sun, we're rising and we won't come down

Into the light  
Into forever  
Let's come together like the brightest stars  
Into to light  
Into forever  
Let's come together like the brightest stars

I'm movin up now  
We built this house together  
Inside the four walls, we're gonna live together  
Together (4x)

Into the hands  
Into the night  
Into the sunrise  
Into my life  
Into my hands  
Through the night  
Into the sunrise  
And the rest of our lives

Into the light, into forever  
Lets come together, like the brightest stars

(5x)  
Come out into the light
