Fear Of Falling

Cutting Crew

Midnight, feels like it's shining on me Moonlight, taxis roll in from the sea Shots in the dark, slaves to the big city beat

Heroes, toasted and sent to the wall Zeroes, bleed you and laugh in your face My kind of town is anywhere else but this place But who can walk on the water?

I can help this fear of falling
I can help this fear of letting go
I can help this fear of falling
I can help this fear of letting go

Hold on, check out and check out the fools Don't you, forget the, the golden rule Don't let them win Start making plans of your own 'Cos you can get what you wanted!

I can help...
