

# Rain on Me

Cyndi Lauper

I saw you gather all your hopes  
With all your dreams  
I waved just like a shooting star  
That once had waved to me

I am a love in mid air  
I think about it I don't care  
Into the fire of despair  
Just like a train that goes nowhere

But you can rain on me  
Yea you can rain, rain on me

There was a time I got it wrong  
Is shakes my memory  
And all the time I had it all  
It's just I couldn't see

I am a robber in the dark  
Singing about a broken heart  
Answering whistles in the air  
Waiting for someone else to care

But you can rain on me  
Yea you can rain on me...

When the rain came tumbling down  
And both your feet were on the ground, oh.  
Running fast and free, oh yea  
Well maybe time's going to wear you out  
Or maybe you're going to come around, or  
We'll just wait and see, oh yea...

But you can rain on me  
Yeah you can rain on me
