

In your dreams

Da Buzz

In your dreams
I know just what I want

I wanna say how much I care
When I'm waiting for you to call
I wanna lay your hand in mine
Before I'm falling apart
I never felt this way

Before I laid my eyes on you
and even if you turned away
I'm standing next to you

How can I make you love me more than this
I wanna stay forever in your dreams
How can I make you say you want to be ... with me
I know just want I want
I wanna stay forever in your dreams

There is a mystery to me
Stronger than I believe
This is the thing I'm thinking of
It's all because of you

I never felt this way
Before I laid my eyes on you
and even if you turned away
I'm standing next to you

How can I make you love me more than this
I wanna stay forever in your dreams
How can I make you say you want to be ... with me
I know just want I want
I wanna stay forever in your dreams

When you have me in your dreams
I'll never let you go
When you feel me in your sleep
I know that you want me

Love me more than this
I wanna stay forever in your dreams (... oh yeah)
How can I make you say you want to be ... with me
I know just want I want (... what I want ...)
I wanna stay forever in your dreams

How can I make you love me more than this (... wanna make you love me more than this ...)
I wanna stay forever in your dreams (... oh yeah)
How can I make you say you want to be ... with me (... can I make you say you want to be with me ...)
I know just want I want (... what I want ...)
I wanna stay forever in your dreams
