

# Living Dangerously

Dami Im

Hoping, waiting for a chance I was never taking  
Safe here, this fear, behind the smile I was faking  
But the light you showed me, revealed the dark don't own me  
So I stepped into the flame, it feels so good to be...

Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be  
Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be

Living dangerously

Despite doubt, I stepped out into the future unknown  
This I'm facing, heart racing, but I know that I'm not alone  
Cause I liked you, showed me, revealed the dark don't only  
So I stepped in, to the flame, it feels so good to be...

Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be  
Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be

I used to hide the real me  
Lock-and-key  
Compromising, always trying  
But never feeling free  
When I found out who I was born to be  
I'm owned it, in that moment  
There's only one me!

Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be  
Living dangerously  
In the fire will find me  
So tell the fear to fear me  
That's how it feels to be

Living dangerously  
You will find me  
Living dangerously  
You will find me  
Dangerously  
That's how it feels to be
