

# Attack Of The Dashing Young And Bold

Dance Gavin Dance

(Wide silent cars)  
You said you know what's right for them  
(Antiques that aren't too old collard greens)  
(Dashing, dashing young and bold)

And when you lie  
(Not too nostalgic)  
You fail to know this line  
And then you let them get away  
(Trash them, lie down)  
(Watch out, they're right)  
When will you let me fall  
(Save me tonight)  
So much more pain

(You're right)  
(I've been lying)  
Tonight it kept ? line  
(About my underground lair)  
No will make you mine

(Form a line straight into the pavement)  
(As you were, as you were)  
(Form a line straight into the pavement)  
(As you were, as you were)  
When you went away  
(You wont testify)  
(You, you wont testify)  
Now who will show you this with love  
(You can't by yourself, maybe)  
Just like you told me  
(? without your trust)  
Just like you told me  
(Without your trust)

It's time to think of my different plan  
(Report to the bridge)  
The lights they're going out  
(The captain is sick with the)  
Get away with you  
(Flu and needs medicine)

(You, you, you can't be saved, trust me)  
When this goes to fall  
(Trust me, I trust you)  
Don't go  
Just fight it  
(You've made mistakes)  
Lights

(Form a line straight into the pavement)  
Let go now  
(As you were, as you were)  
Of this life  
(Form a line straight into the pavement)  
Such snow these weeks  
(As you were, as you were)

(You won't testify)  
When you went away

(You, you won't testify)  
Now who will show you this with love  
(You can't by yourself, maybe)  
Just like you told me  
Just like you told me  
(? without your trust)  
(Without your trust)

I'm letting you take this from the start  
There is just one condition in which you can't decide  
(I'm going to my secret lair)  
(Underground)  
(Drop, drop down, drop it)  
(Drop, drop down, drop it)  
One more of that screaming lie  
(I'm going to my secret lair)  
(Underground)  
Who will give you hope  
(Drop, drop down, drop it)  
(Drop, drop down, drop it)

To poke your eyes  
No you're nothing special

(Wide silent cars)  
And you said it was ? away  
(Antiques that aren't too old collard greens)  
?  
(Dashing, dashing young and bold)  
And I won't let you fall  
(Dashing, dashing young and bold)  
You deny? this with this love?  
(Dashing, dashing young and bold)
