

# Good Morning You

Daniel Johnston

Good morning you  
You've got the world, what's in your way  
Good morning you  
Had to stop to think of something to say  
  
You sat in the chair and you were there  
You looked at the wall and started to stare

Good morning you  
What do you plan to do?  
Good morning you  
Though you can hardly move

You sat in a chair and you were scared  
There's so much you could do if you dared

Good morning you  
You've got the world, what's in your way?
