

Hey Joe

Daniel Johnston

Hey Jude
Come on, Joe
Don't make that sad song
Any sadder than it already is
Hey Jack, get back
Get yourself together
Come on, come on
I know you're thinking of your nervous love
I know exactly what you're thinking of
Hey Cid, no matter what you did
It can work out, work out
No matter how you feel right now
Hey George, do your chores
Don't feel sore
I know it's a lot more than just being bored
There's a heaven and there's a star for you
There's a heaven and there's a star for you
There's a heaven and there's a star for you
