

I Killed The Monster

Daniel Johnston

I'm moving on. I'm getting out.
I killed the monster

Passed it behind, fate has been kind.
I killed the monster

I know it's right, I learned to fight
I killed the monster

Let it be said when I am dead
I killed the monster

He put me down through many rounds
But I have found a good thing
Right to the end I was my friend
I killed the monster

I almost lost I paid the cost
I killed the monster

Angels came down right on the ground
I killed the monster

Blood on the ground, there was no sound
I was the winner
They put me down through many rounds
But I have found a good thing
I killed the monster.
